The Name Callithrix is derived from the greek “Kallos”, meaning beautiful and thrix, meaning hair

Callithrix means Beautiful hair

SUITABLE FOR ALL TYPE OF HAIR FOR BOTH MEN & WOMEN

Introducing Next Generation A Premium Hair growth products with Proven Active Pharma ingredients (API)

Callithrix™
Hair Growth Serum

CAFFEINE, BIOTIN, HYDROLYZED KERATIN, REDENSYL, ALLIUM CEPA, SAW PALMETTO EXTRACT, CALENDULA EXTRACT, AMINEXIL, NIACINAMIDE, DEAD SEA MINERALS. VITAMIN B3, D-PANTHENOL, GREEN TEA EXTRACT, EMBLICA EXTRACT, GUAVA LEAF EXTRACT, GINGER EXTRACT, KOREAN GINSENG, SOYA WHEAT PROTEIN & VITAMIN E

AMINEXIL
Aminexil treats hair loss, promoting hair growth for those having the condition of alopecia. It increases the circulation of blood to hair follicles which triggers an increase in hair growth and also prevents the hardening of the hair shaft and the buildup of collagen around it.

REDENSYL
Makes hair stronger and thicker – it provides nutrients to the scalp and hair follicles and increases the blood flow in the scalp. It increases hair density – Redensyl is known to prevent hair thinning by increasing hair density. It has shown an 8.9% increase in hair growth during the anagen phase

HYDROLIZED KERATIN
Reduces frizz, shedding and breakage.Increases smoothness and elasticity with its moisture-binding abilities.Essentially, hydrolyzed keratin helps rebuild the hair's natural protective layer from the inside by increasing the diameter of each strand.

CAFFEINE
according to research, the caffeine in coffee can help stimulate hair growth and stop hair loss. One 2007 laboratory study found that caffeine helped block the effects of DHT in male hair follicles It stimulated hair shaft elongation resulting in longer wider hair roots

BIOTIN
Biotin is well known for its positive effects on hair. Research shows that biotin improves hair health — including shine, volume, and scalp coverage in women who experience thinning hair. Research also shows that biotin helps improve skin's hydration, smoothness, and appearance.

NIACINAMIDE
Niacinamide has a vital role in growing long and strong hair due to its circulation boosting properties. It enhances the appearance and feel of hair, by increasing body, suppleness, sheen. It also improves the texture of hair that has been physically/chemically damaged by helping to build Keratin

ALLIUM CEPA
Allium Cepa (Onion extract) applied to the hair may nourish the hair follicles, which might increase volume, shine, and improve hair strength. The extra nutrition may also minimize breakages and thinning. As well as conditioning, using onion juice may also promote new hair growth in some people.

DIRECTION TO USE:
Apply the serum on wet hair, gently massages the scalp for 2-5 minute. Due to gentle and active natural formulation Callithrix serum can be used daily

NATURAL PLANT EXTRACT
EMBLICA EXTRACT
GREEN TEA EXTRACT
D-PENTHENOL

BENEFITS FOR HAIR, FRESH PLANT EXTRACTS:
Calms irritated scalp conditions. - improves hair shine. Mandarin - improves circulation through scalp. good antioxidant-rich tonic for hair.

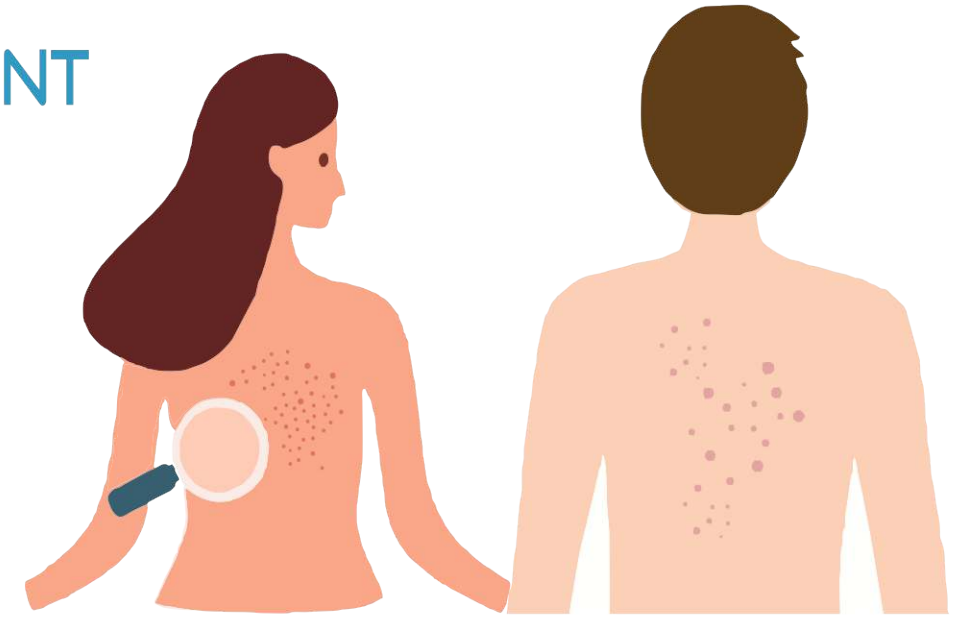

Panthenol is also good for rough textured hair because it can smooth out the imperfections in the hair shaft." Acts as an anti-inflammatory: Dr. Camp notes that panthenol in the body is converted to vitamin B5, which has anti-inflammatory properties that aid in the reparative process of damaged hair.
